

# Healthcare Platform Infrastructure

---

*Category: Infrastructure & Security | Date: 2019-Present*

---

## Coming Soon

This case study is currently under development. Check back soon for the full story about my work on the infrastructure for Improving MI Practices, a critical healthcare education platform.

## What to Expect

- The design and implementation of secure, scalable infrastructure for healthcare education
- Implementation of CIS Level 1 and 2 security standards
- Automated deployment pipelines and monitoring systems for high availability
- Technical challenges of handling sensitive healthcare training content

In the meantime, you can visit the platform at:
